

For Immediate Release

Security and Compliance Software Veteran Joins ByStorm Software

Scott Hollis named SVP Marketing & Business Development

Houston, Texas, December 27, 2011 - ByStorm Software, LLC, announces today that Scott Hollis has joined the company and is responsible for developing and executing product, marketing, partner, customer acquisition and retention strategies. Initially, Hollis will focus on expanding the distribution model to include Managed IT Service Providers (MSPs) and Value Added Resellers (VARs).

Hollis has broad commercial software experience; he has held senior marketing, product management, business development, engineering, and customer support positions in security management, systems management, network management, and database backup and recovery management. He has excelled in varied key roles within different sized organizations, ranging from privately held venture-backed technology start-ups to publicly traded Fortune 100 companies, most notably with Alert Logic, NetIQ, BMC Software, and IBM.

“We are fortunate to have Scott’s entrepreneurial will and proven track record of bringing solutions to market,” said Gene Allen, founder and President of ByStorm. “Scott’s expertise is a great complement to our existing management team as ByStorm continues to address the needs of our customers and strengthen our existing proven position in the Windows file auditing and data loss prevention market.”

About ByStorm Software:

ByStorm Software was founded in 2003 and provides IT organizations with low footprint, yet comprehensive file auditing, data loss protection, and compliance enabling alerting and reporting for the Microsoft Windows platform. ByStorm Software is committed to ensuring that our customers are empowered to meet PCI, HIPAA, NERC/CIP, NIST, 21-CFR-11, SOX and other security and compliance mandates.
